PRINCIPALS PAGE

Tradition, Vision, Excellence – these are the words that were chosen by many people to describe Launceston College, the organisation with which they have an affinity as a student, a staff member, as a parent and a friend.

I don't think it is merely the strong data that supports that description – even though our college is the oldest in the state, our college is clearly evidencing its vision of "rapid evolution" and our college has a tradition of student outcomes of significant note.

Launceston College is not merely an amalgam of courses as are so many newer organisations. Launceston College has a physical presence, it has all courses operating on the one campus and it has a highly developed learning environment that motivates and facilitates learning.

I think many people well removed from interactions with young people know too little of the need for students to have strong connections with people and with their learning organisation.

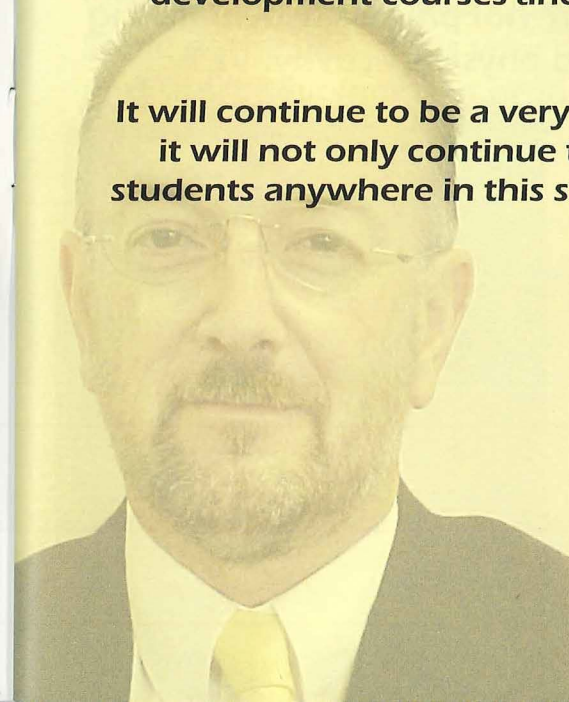

A learning climate that supports interaction, physical and emotional safety and student support has been developed over recent years in this magnificent 1 ½ city block campus – and all are precursors for high level outcomes for students.

Connection to their learning organisation is also one strong element in ensuring student attendance and retention. That connection requires the organisation to first have a presence – and Launceston College is one of few colleges that have this presence and the staff and processes to support students to the highest level of personal and academic development.

For the next two years Launceston College will operate in college mode. It will offer high level academic subjects, vocational/training subjects and work ready development courses and it will continue to top the Department of Education outcomes in the North.

It will continue to be a very safe place for students physically and emotionally and it will not only continue to offer the greatest facilities available to year 11/12 students anywhere in this state – it will continue to offer students in the North the most committed staff.

- Keith Wenn

VET SPORT ★ REC

This year the VET Sport and Rec class included 16 sport and rec students and 1 outdoor rec student. This subject has given us an insight into the sport and recreation industry. During the year we have completed a number of courses including First Aid Workplace 2, and Community Coach Training Course.

From taking part in this subject we now have direction in a career path we would like to take in the sport and recreation industry. Some of us gained jobs and traineeships from our work placements. Overall the year has been great and we have gained a lot of experience, knowledge and confidence to go out into the work place.

Emma Lawson & Nick Allen

FIRST AID

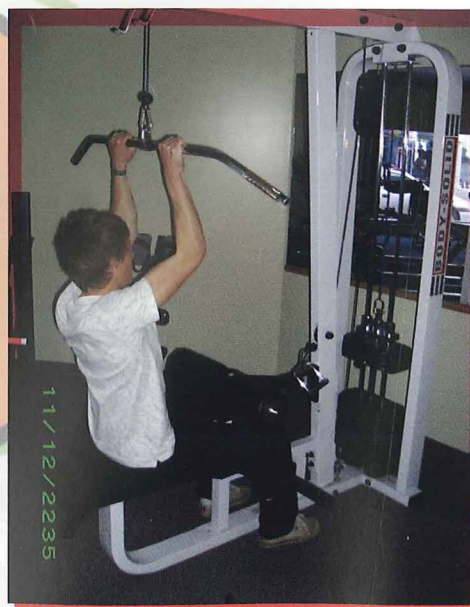

During the year we completed our Senior First Aid Workplace 2 Certificate. We were taught CPR, how to treat shock, how to treat bites and stings, how to properly stabilise broken bones and how to treat sprains using the rice system (rest, ice, compression, elevation). Also during the course we learnt the proper techniques when bandaging.

Aaron Campbell and Josh Waldie

ACTIVE AFTER SCHOOL COMMUNITIES PROGRAM

Tuesday afternoon's at Mayfield Primary School a group of 6 Launceston College, VET students lead a group of 10 – 15 Mayfield Primary students in fun recreational activities. The activities are designed for children that are not as active as the children who play sport during and after school. The activities are not physically demanding or mentally, they are designed to introduce children into physical activity. VET students designed a program that involved a start up activity, this was a simple warm up that was short and sharp. This was followed by get into it, which was the focus activity, it involved a sport that is modified to suit the skill level of the participants. Then went into a very short and simple exercise called finish up, which involved participants to cool down and do something real simple either follow the leader or pack up the equipment.

Ryan Smith and Matt Boyd

TASRAD

In term 2, Leanne Carlon from TASRAD, came to Launceston College to talk to our VET class about sport and recreation for people with a disability and how to include everyone in sporting activities without altering the game significantly. Throughout the time she spent with us, Leanne took us through a few activities and we got to use equipment that showed us what its like to play sport with some sort of physical impairment. Our challenge was to develop the game to ensure that it included everyone regardless of their physical capabilities.

By Kimberlee Dixon and Alicia Freeman

COMMUNITY COACH TRAINING COURSE

In term 1, Ralph Norris from the Australian Sports Commission, ran us through our Community Coach Training Course. It was all about keeping kids active and getting them involved with sport. Our main goal wasn't to run through a full intense game with a lot of tactics involved, it was to keep them moving and change the game to keep the pupils engrossed in the task at hand. The course was well thought out with recourses like game cards to help us pick activities that were suitable. Over the two days with Ralph we all got many turns at putting our new skills into practise. We also had to do an online coaching course on the AIS website to attain our Community Coaching Certificate.

By Sam Hall & Jacob Oakenfull

WORK PLACEMENT

During the year we have been involved in three sets of work placements. Work placement is an opportunity to get experience and gain knowledge of different work places in the sport recreation industry. This gives us the opportunity to decide what sort of career you would like to pursue in the sport and recreation industry. Some of the industries which we were involved in were, gyms, schools, retail stores and sport development organizations such as AFL Tasmania. Work Placement is a fun and new experience.

Rhys Kinslow and Jason Bennet

science

2008 was a great year for LC sciences although we lost Vince Anderson to NSW primary schools. Udo took over VET Electrotechnology and got our Solar Panels on the top of B Block up and running. This pumps a mighty 1kW into the system on a bright day.

Jane Eadie ran the VET Animal Care and Agricultural Sciences for the first time and found it hard work though the students were excellent. Biology and Life Sciences as usual went on lots of excursions to beaches and other lovely settings.

In the physical sciences, James Clark and Bradley Arnold won UTAS science scholarships during the year while Teresa Fiahlo, Alysia Brown and Tomas Steele all won scholarships to the National Youth Science Forum, an unprecedented number of students from one College.

Science Week was great fun with Simon McCulloch, a former LC student coming in to give a lecture on Meteorology and lots of Grade 5/ 6 students running around looking frantically down microscopes and learning about refraction. Many of our students helped these little tackers. Our Chemistry students went out to the University for some thermodynamics experiments with Dr Andrew Seen.

Chemistry students have been particularly active with a Chemistry Quiz with Brad Arnold, Jarryd Field, Lauren Thomas, James Clark and Ji-Yeol Yang and the Titration competition where we had 4 teams organised and run by Andrea Cass, our Laboratory Technician.

A couple of enthusiastic students have pursued the astronomy elective while tutorials have puttered along. As usual a queue has formed outside of Maroula's door because of her great help!

THE 2008 TITRATION RESULTS

These results have just come in: Launceston College did very well with a statewide 2nd place behind Elizabeth College.

In the grade 11/12 section 40 teams participated. Launceston College was represented by 4 teams with all teams placing in the top half. Congratulations to Laura Thompson, Lauren Thomas and Rebecca Morris for their individual results 100% correct.

Students with individual results within 1% of the actual value will receive a certificate of Excellence. Nine of our students will receive this award.

2ND

- Rebecca Morris
- Hannah Ling
- Hannah Whelan

6TH

- Lauren Thomas
- Brad Arnold
- Jvoti Maulder

15TH

- Laura Thompson
- Jarryd Field
- Edwin Town

18TH

- Neika Bishop
- Kristy-ann Youd
- Nathan Brown

The top 10% of the teams were invited to participate in the National Competition.

Launceston College students Rebecca Morris, Hannah Ling and Hannah Whelan were invited to participate nationally some time at the end of October. Good luck to the LC girls.

Of course we cannot forget the efforts and the hard work of our Lab technician, Andrea Cass who helped all the teams before and during the competition. She is already getting ready to help again during the finals.

In 2008, 517 of you enrolled in a Maths course at LC. By year's end, there were still 468 students enrolled in Maths. 24 students enjoyed Maths enough to enrol in more than one Maths course.

There were over 1500 attendances at daily lunch-time tutorial sessions throughout the year.

Maths students competed in 4 different competitions – the Tasmanian Maths Competition, the ICAS International Competition, the Maths relays and 3 students were invited to sit for the prestigious Urquhart competition. We didn't enter the Australian Maths competition this year because it clashed with our mid-year exams.

Maths students visited all over the place from local supermarkets to the AMC. Visiting speakers showed how classroom Maths could be applied in all sorts of situations – from stopping cars to floating ships.

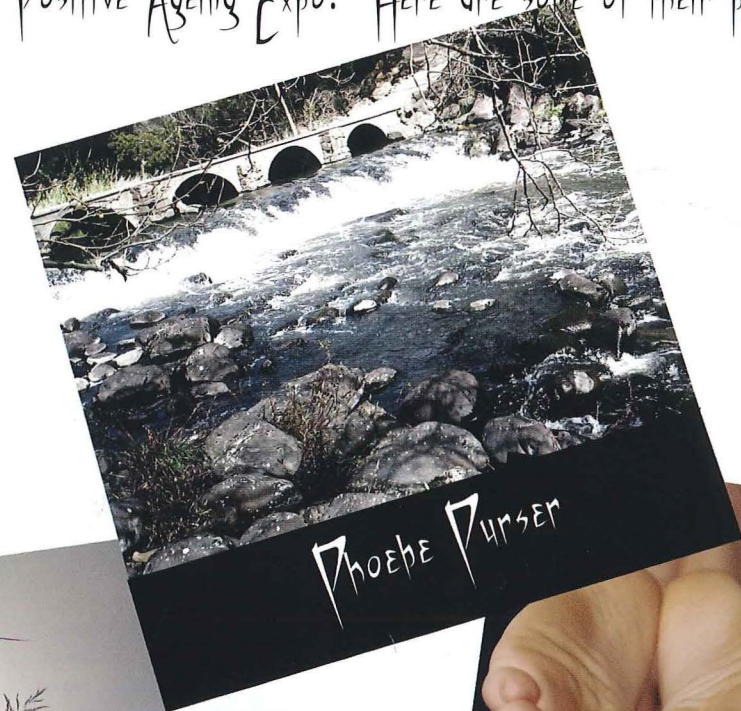

Photography

Documentary Photography Project

In August this year, three of our Photography students, Megan Kemp, Lucy Goldsmith and Brooke Trevena, were involved in a Positive Ageing partnership with some Norwood Primary students. Their brief was to take photos of the interaction of these students with seniors from The Presbyterian Homes for the Aged and their photos were to form part of a Positive Ageing Expo. Here are some of their pics

DANCE

Dance Fever

Yet again, it has been a fun-filled year in the dance department.

Students enrolled in the Level 3, 4 and Pre-tertiary classes have been pushed to the limit and have enjoyed the results.

The Launceston competitions gave the dance classes a fabulous opportunity to really shine. The Level 5 classes gained 1st place, 2nd place and two Highly Commended awards. The Level 3/4 class gained 2nd place! Well done, girls!

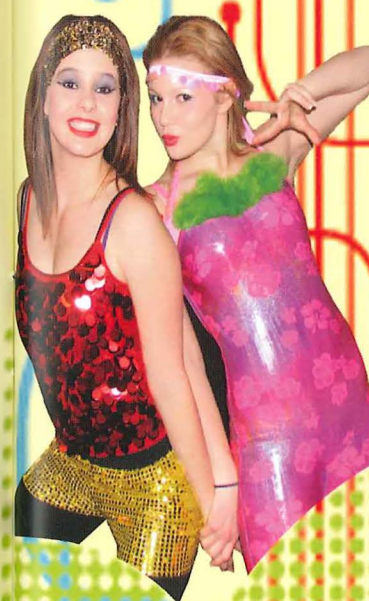

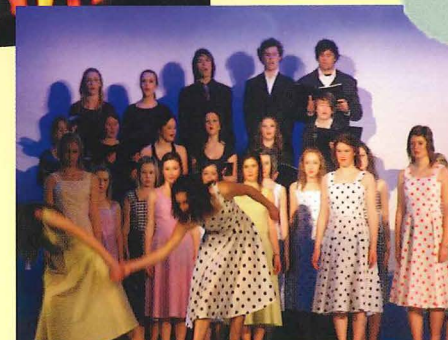

Nicole Evans was selected to take part in the TasDance Annual Touring Schools' project which was a huge success. Nicole had to audition and then spend 10 days with other students from around the state creating a 20 minute dance piece. This year's piece was titled Planet Earth, it had scientific concepts related to the theme. Nicole was a stand-out performer and did herself and the college proud.

Term two saw the Level 5 students preparing for their mid-year exams. The students had to prepare a group piece. The level of skill was just fantastic and it really showed how hard the students have worked throughout the year. A big thank you must go to Bridget Nicklason-King and Briony Penrose for helping to assess the student's practical exams. Although a daunting experience for the students, it is invaluable to have other teachers assess their work and provide written feedback.

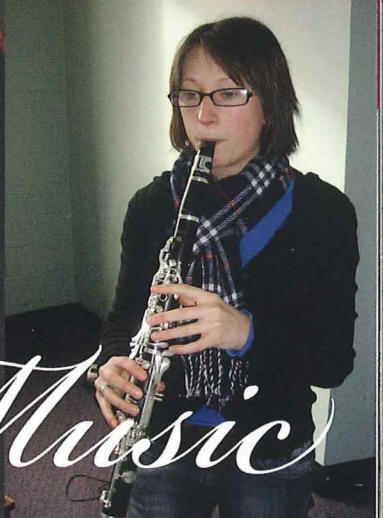

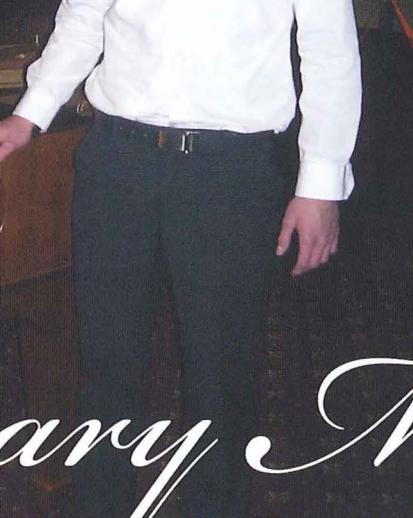

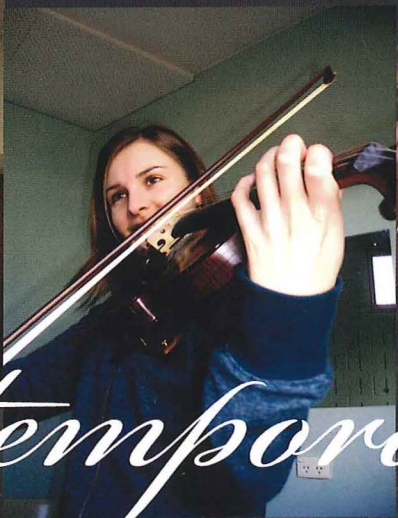

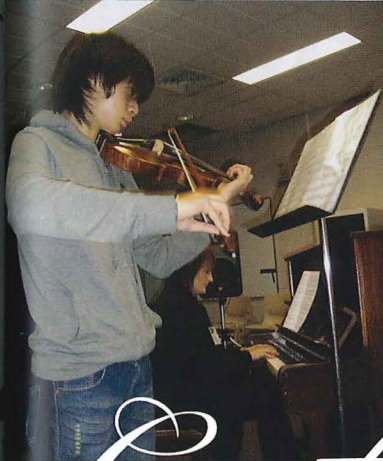

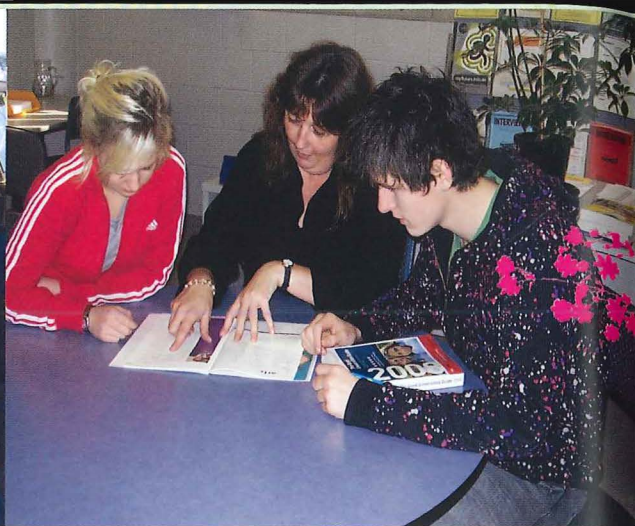

Term 3 saw all students preparing for the 'Final Fling'. This was held at the Earl Arts Centre on October 29th and was a chance for the level 5 students to showcase their exam pieces in front of a supportive audience before their examinations the following morning.

2008 is also an exciting year for the dance department; we have formalized a partnership with The Academy of the Arts at U Tas to offer a Dance Composition and Performance unit as part of their summer school program. Designed for students, graduates and current teachers of performing arts subjects, this unit provides one University elective credit which is transferable against most degrees here and interstate. Further information can be found on the U Tas website.

Contemporary Music

Careers 2008

Launceston College has a comprehensive Career Program in place which operates through the Careers Centre and the provision of opportunities offered during SA .The program is delivered by a very experienced team of careers teachers: Jo Fitzallen, Trudy Lister, Rick Smith, Selina Diplotti and Maree Pinnington (Assistant Principal). Our goals are Student Awareness, Student Access and Student Acquisition of skills and knowledge to assist student to make informed decisions about their future.

Communication

I'm constantly amazed by the amount of work this generation takes on. Many have family responsibilities and expectations, educational dead lines to meet, employment tasks, sport commitments, youth group involvement and more. I see my role as college chaplain not only to communicate to them a sense of support but to also provide for them the opportunity to communicate back to me their needs, hopes, ambitions and trials.

In the book, "The New Rules of Engagement. Engaging with Generation Y", the author, Michael McQueen, speaks of how gen. Y, being the digital generation, are often over whelmingly connected to their mobile phones, Facebook and Myspace profiles, iPods and other media forms in the pursuit of staying and seeking connectedness.

This year gone I have used this insight to communicate to the student body a sense of hope, self worth, purpose and responsibility. Using the college's intranet and showing motivational DVD's as well as helping to arrange and advertise special events like a camp at Liffey Falls, a motorcycle rider refresher course and Brekky On The Run for students who miss that meal. Also attending college events like drama plays and BBQ's. I have endeavoured to communicate to the students a sense of interest, care, empathy and rapport in who they are and what they're doing.

For those students who hold to spiritual beliefs I've furthered this communication with teaching on how their beliefs affect and contribute to their daily lives, their morals.

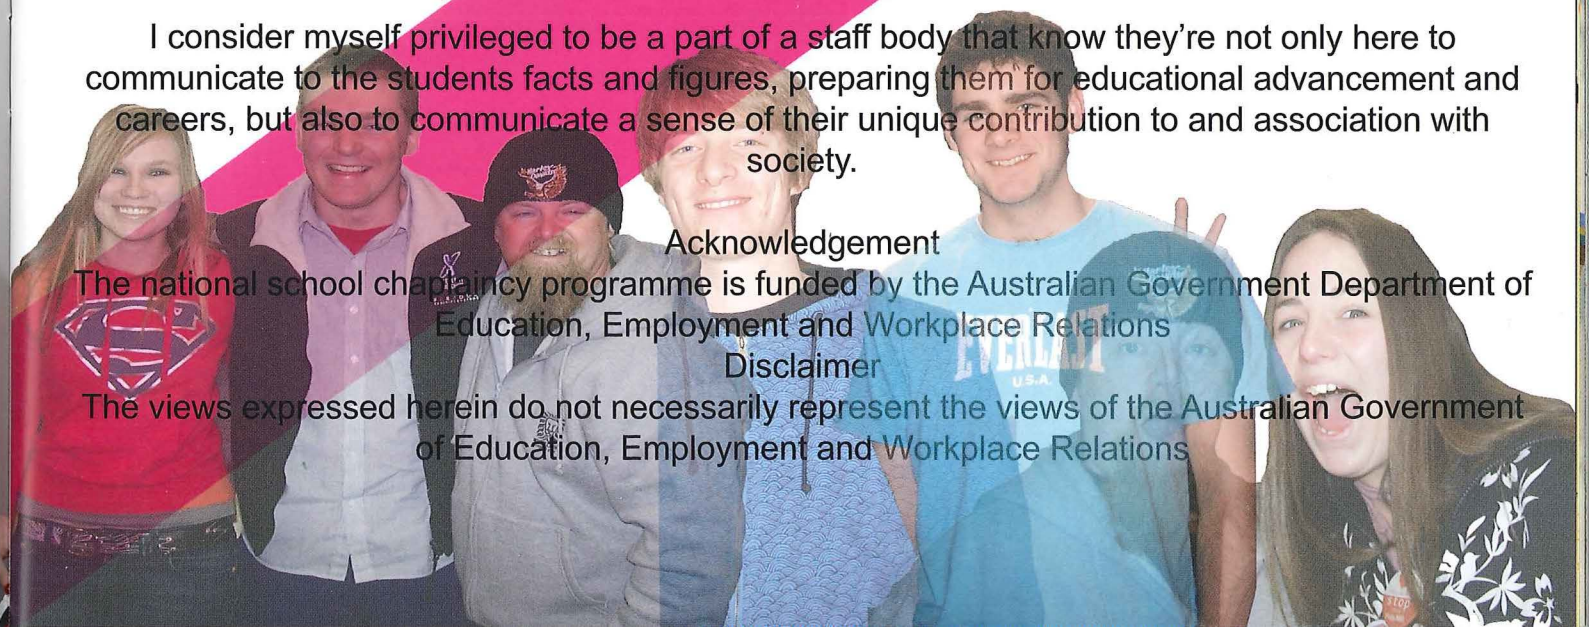

I consider myself privileged to be a part of a staff body that know they're not only here to communicate to the students facts and figures, preparing them for educational advancement and careers, but also to communicate a sense of their unique contribution to and association with society.

Launceston College Ball black + bling

The day before Show Day was an exciting time for 350 Launceston College students – getting glammed up to attend the LC Black & Bling Ball!

This year we wanted to give everyone the chance to be glamorous and elegant – and the attendees certainly fulfilled this requirement. Everyone looked gorgeous, as did the room – beautifully decorated by Caz Robinson and our organising committee of students and staff. Students contributed to the planning, setting up and running of the event – the involvement of more students this year certainly ensured we were able to put on a night for all to enjoy.

In a break from the tradition of recent years, the Ball was held at the Tail Race Centre. Feedback from staff and students has been overwhelming that this was a good choice, and that the event was a great success. For the first time we chose to use only student DJs as the entertainment, showcasing a range of music styles, and setting up a great atmosphere for the energetic dancing that went on for much of the night. A now solid tradition at the LC Ball is the Limbo competition – it truly is amazing how many tall boys manage to get so far in the comp..... A range of prizes were awarded this year for e.g. Belle and Beau, Cutest Couple, Best Dancers, Best Interpretation of the theme – congratulations go to our worthy prize winners for entering into the spirit of the night so enthusiastically. We welcome participation from students from all areas of College life, and were particularly pleased to see so many International and ESL students there on the night. Students were once again able to have their photos professionally taken as a memento of their special night – checking out the shots and making purchases is quite a feature of the week or two after the Ball! Thanks to Mark Hyland for providing this service.

A big thank you goes to the staff volunteers who attended to help celebrate the year with students, and ensure the smooth running of the night. Tickets are always limited – so in 2009 – make sure you get your tickets as soon as they go on sale – don't risk missing out!

A dense collage of numerous student photographs from the Launceston College Ball 2008. The photos are cut out and pasted together, showing students in formal attire like suits, ties, and dresses. Some students are smiling, some are looking at the camera, and others are in candid poses. The background of the collage is a mix of dark and light tones, with some photos showing indoor settings like a hall or a stage.

LAUNCESTON COLLEGE BALL 2008

Premiers Lunch

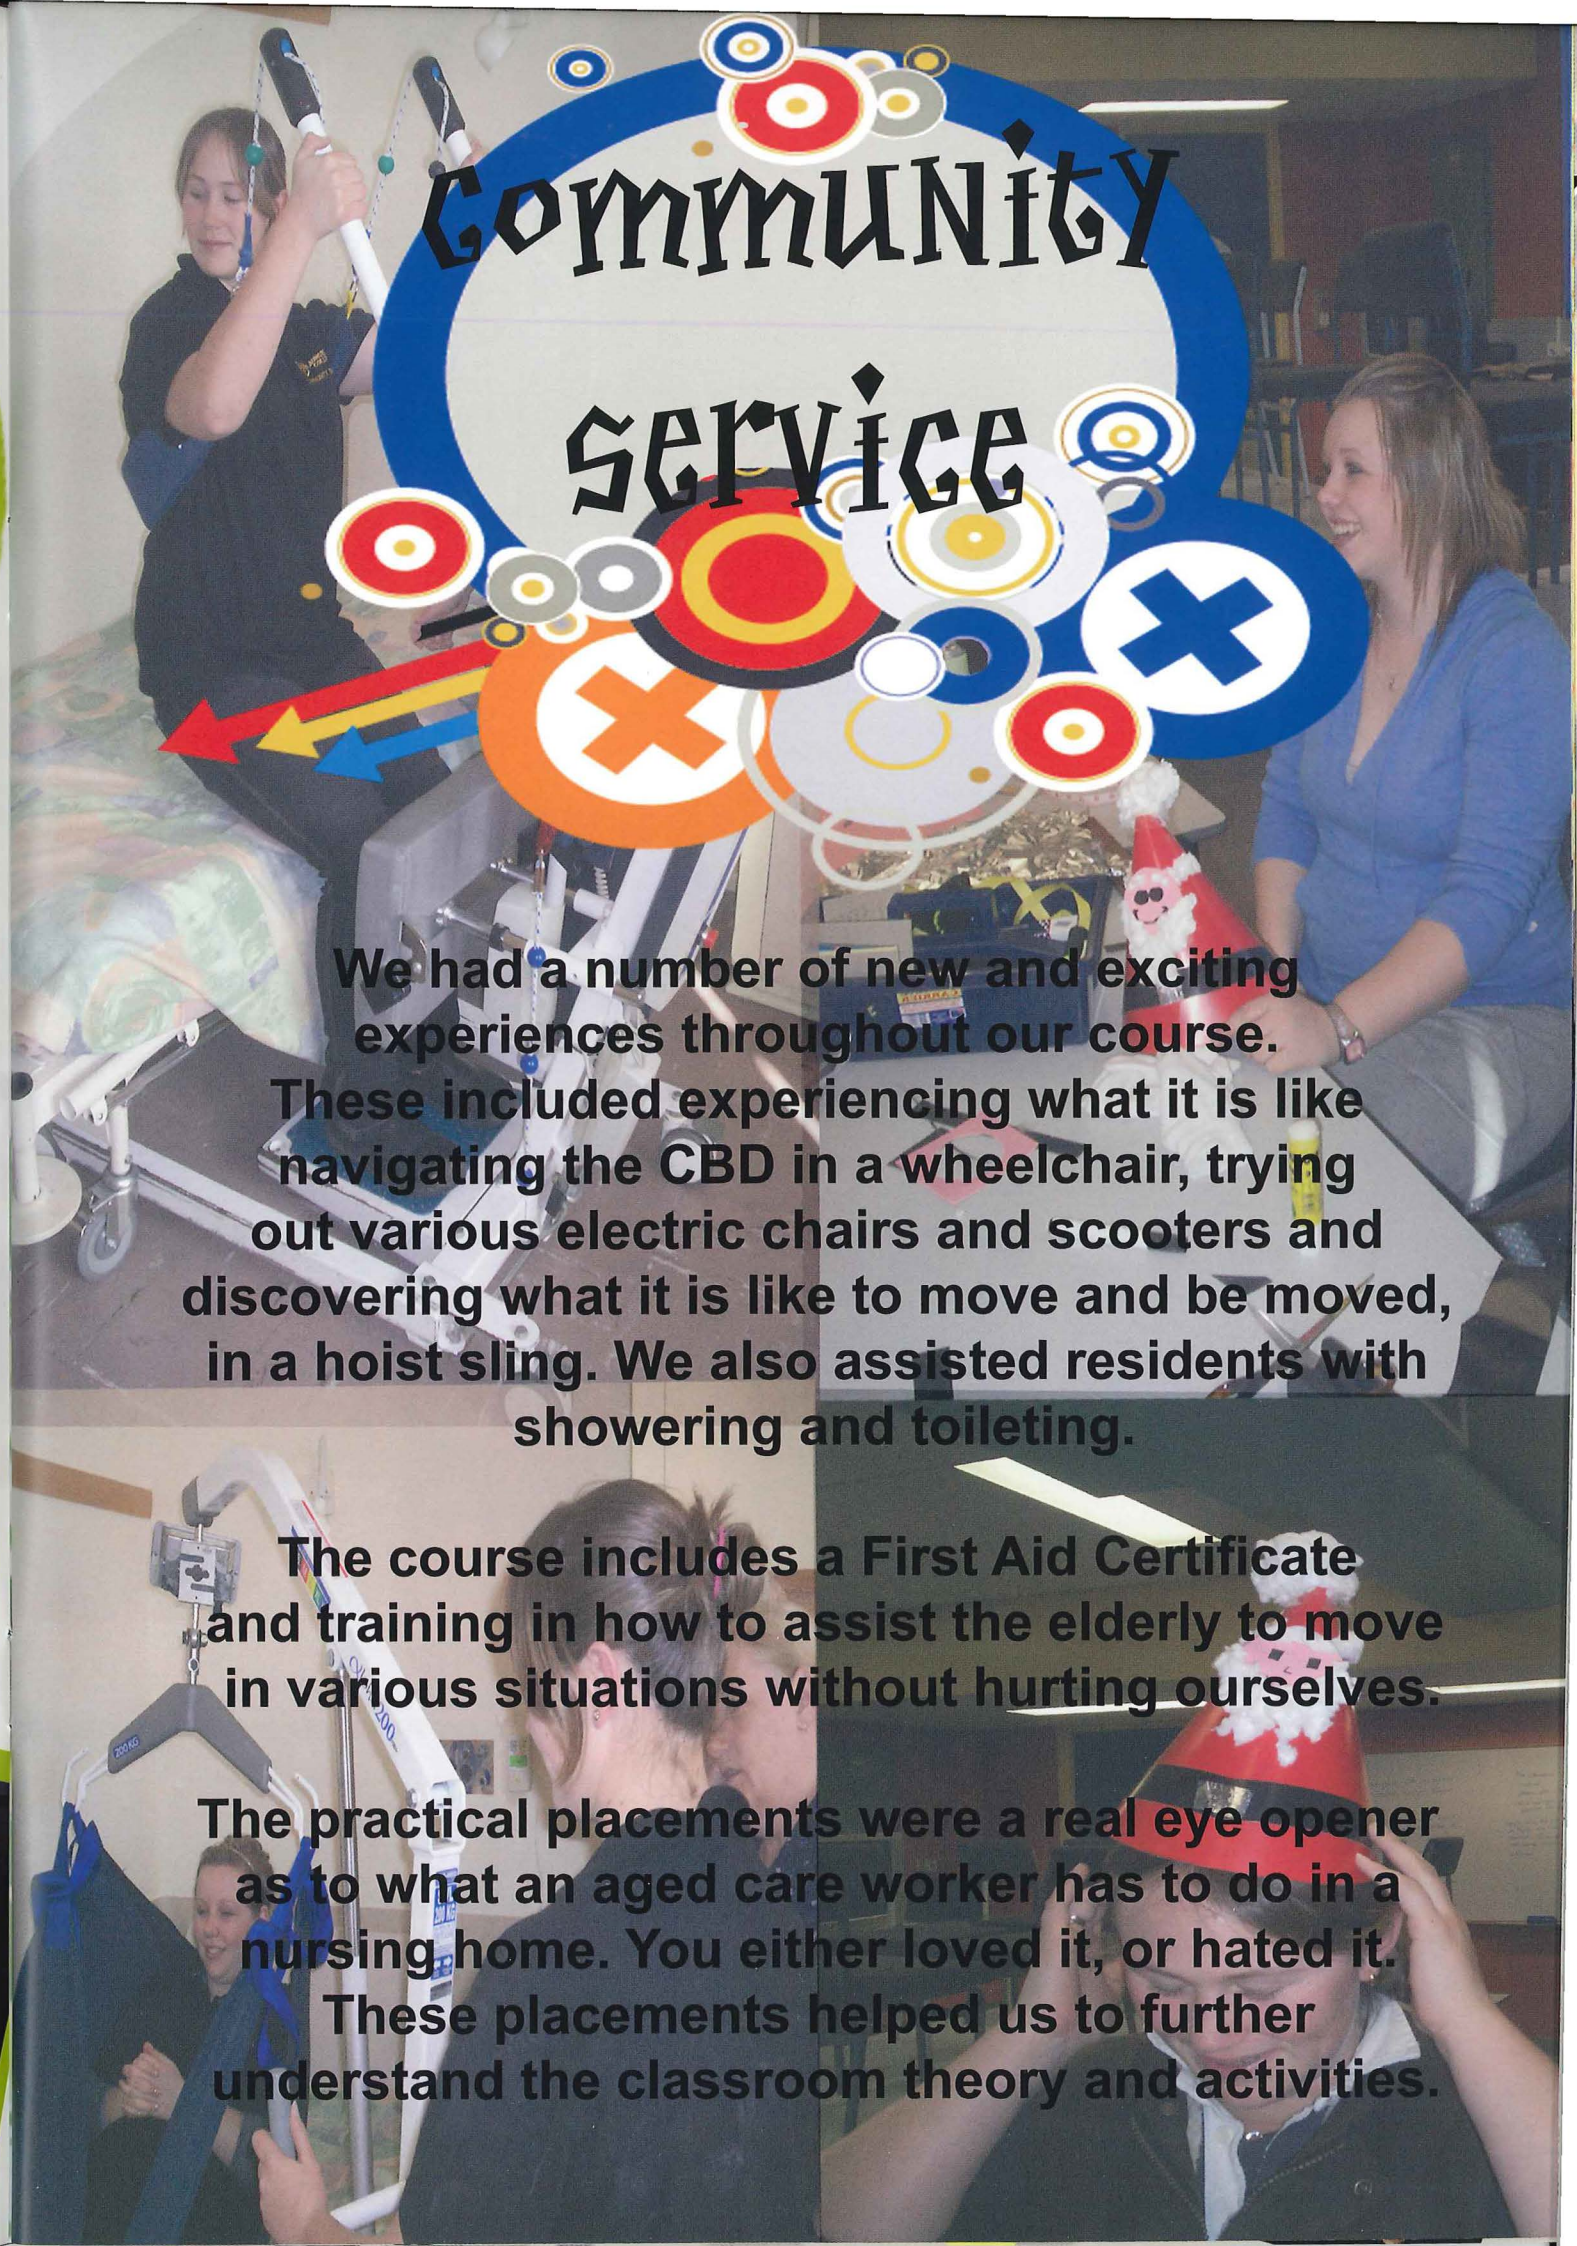

Community Service

We had a number of new and exciting experiences throughout our course. These included experiencing what it is like navigating the CBD in a wheelchair, trying out various electric chairs and scooters and discovering what it is like to move and be moved, in a hoist sling. We also assisted residents with showering and toileting.

The course includes a First Aid Certificate and training in how to assist the elderly to move in various situations without hurting ourselves.

The practical placements were a real eye opener as to what an aged care worker has to do in a nursing home. You either loved it, or hated it. These placements helped us to further understand the classroom theory and activities.

Rolling in the Pool 2008

Thursdays have been fun days for about 6 to 8 students who have consistently turned up at LC pool to use the kayaks and learn to roll!

Typical enthusiasts have included Hannah, Jyoti, Jodie, Alysia, Sam, Andrew, Addison and Solomon.

The sessions for the novice have started with – aaagh – water is wet and, when inverted, goes up nostrils! The idea of being upside down is terrifying!

After a while, - watching last years students rolling, comes the feeling that they should also be rolling! So comes the time of learning the dreaded “hip-flip” on the bars and Jason shouting “Hips, Hips, Hips!” in the soaked ear. Such gentle comments given as “ the kayak first – cause it costs money, head last cause there are lots of people!” designed to give confidence.

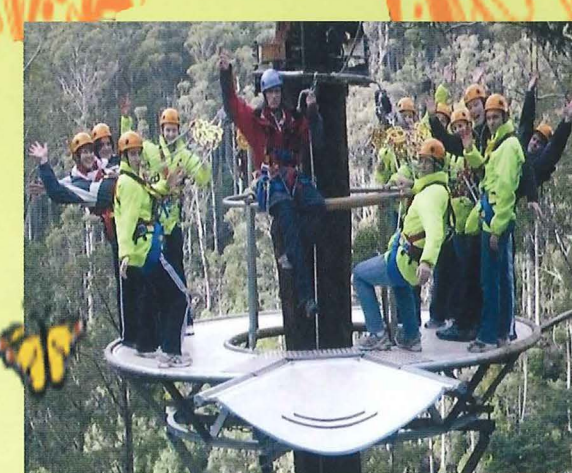

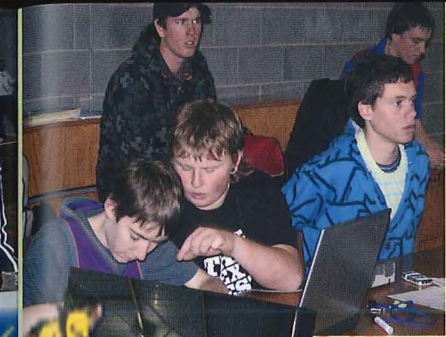

The delight when the first successful roll occurs – but then the challenges – roll on both sides, back deck roll – and the ultimate HAND ROLL!

Lastly, Jason has introduced canoe polo in the last few weeks of the year. A ball thrown, people swimming, exhaustion. What a great pool!

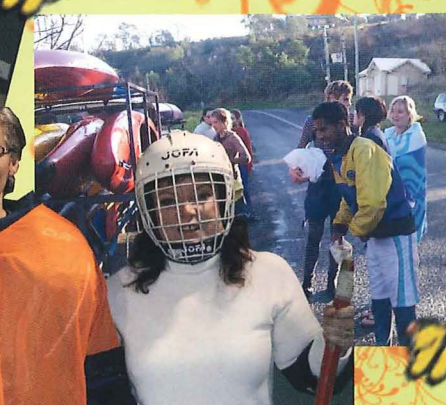

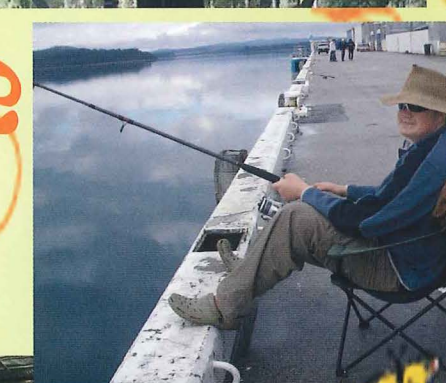

Jason Dicker

KnockOut Athletics!

Inter College Day

Global Gourmet

Working With Children

Every week dedicated students from two “Working with Children” classes run a 2 hour playgroup for 18 children under 5 years.

Students play with: playdough, sand and slime. Make: masks, puppets, paintings, binoculars, dress up and have tea parties. They read stories and sing songs like The Wheels on the Bus or Hokey Pokey.

It is a wonderful practical way for students to learn about children's development, interests, needs and become more confident in guiding children's behaviour.

Since 1993 WWC has helped students train for careers in Early Childhood teaching, Child Care Centre work, Nanny work as well as the demanding job of parenting!

Le Français

This year at LC there has been 3 French classes; a level 3 beginners, a large level 3 night class and a level 5. The dedication of the level 5 student is remarkable and was reflected in outstanding TCE results last year, with Rosalin Mortimer gaining the top marks in the state for French. Students in all 3 classes enjoyed a delicious feast on Bastille Day, contributing wonderful dishes and a d Global Gourmet Day saw a celebration and showcase of French foods

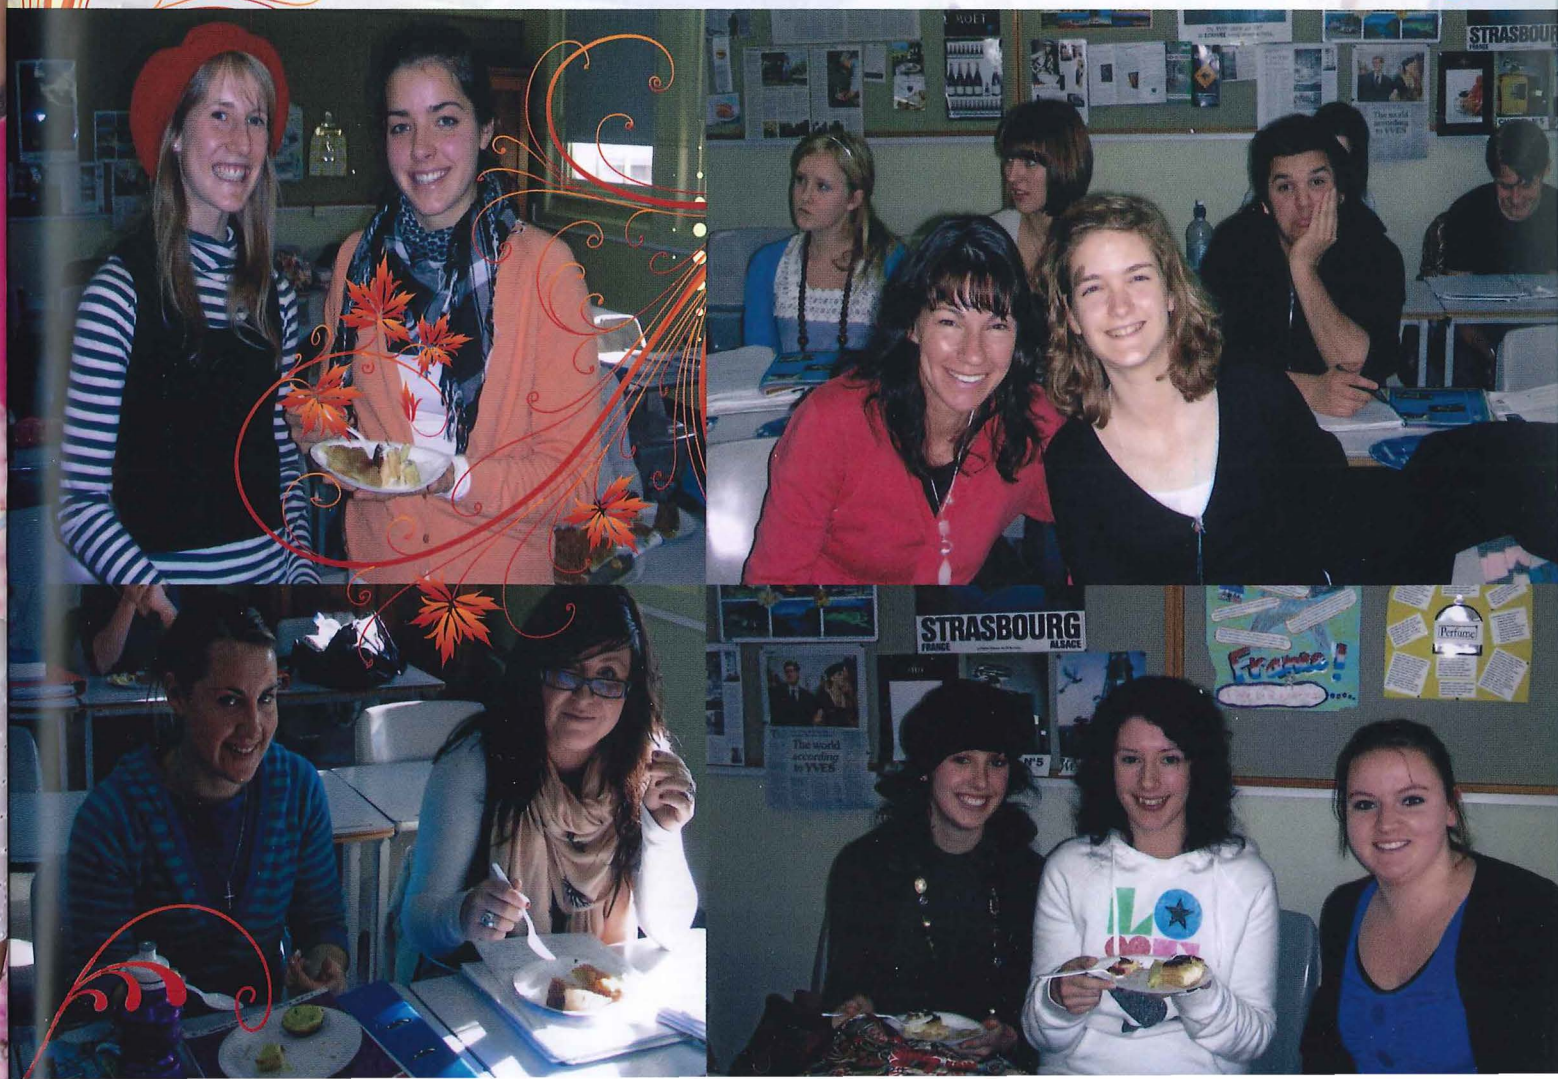

French French

Alexandre, Hugo, Isaure and Anne-Claire were delightful additions to the level 5 class in term 2, hosted by Sally, Laura, Kaitlin and Penny. Tanina from Finland and Anne from Germany also joined in term 2.

Laura, Kaitlin and Penny will spend December and January on a 2-month exchange in France and Hannah will spend 6 months.

French is certainly proving to be a passport to the world for many LC students as well as a worthwhile and memorable subject.

ENGLISH

It was a busy as usual in the English area this year with many dedicated students working really hard to produce outstanding creative and analytical pieces. The year kicked off with a Poet Tree for Valentine's Day. Students and staff were invited to pick a piece of romantic poetry for their beloved and lucky participants won flowers and boxes of chocolates.

The English Area hosted a stall for the Writers' Club on Activities Day in Term One. Many aspiring and accomplished writers signed up for the club and we met several times each term to share ideas and have fun. Hopefully the club will be even bigger and better in 2009!

We all enjoyed a presentation from visiting author, Steven Herrick early in the year. His comic insight into his writing process was tempered with some good advice about finding your own voice and getting inspired.

On the publishing front some of our exceptional poets starred in state-wide and national publications. Poems by Sarah Clarkson and Marianne Wilson appeared in the national literary journal, Famous Reporter. As part of Living Writers' Week 50 poems by 10 student and adult poets were scattered around gardens in three locations for patrons to enjoy and were later published in Poems by Sarah Clarkson and Meg Kemp were displayed and published in Poet -Tree.

Best wishes to all our talented year 12 students as they leave us for a bright future. We look forward to seeing many of our year 11 students back for another year with our dedicated staff. A huge thank you to our terrific team of teachers who spend so much time supporting, encouraging and enriching our students.

Steven Herrick- visiting author

The Hazards

My tent is nestled
in the solar plexus
of a big breasted
mountain

The sea
is her stomach
where the fish and the squid
entertain

Sea-lettuce sways
over her legs
and boulders sparkle
around her neck

Beware he
who climbs her
and becomes tangled
in her eyes

She has tiger snakes
for lashes
and a mountain's mind
for memory.

Sarah Clarkson

Colour Blind

She's got fire in her eyes,
The type of flames that burn you
Licking and lolling around her pupils
Sucking and stripping away her purity
She's out of control
The dragons of her eyes,
Breathing their auburn ashes over her vision
Someone's trying to run her out
She can't tell the truth from the lies
She only sees grey now

Bonnie Travers

Jew

Sarah
on her birth certificate
was all that it took

but it took her fillings
and her coat
just in case.

Sarah Clarkson

Silver glitter on her cheeks
Silver glitter on her eyes
Silver glitter on her lips
Friends don't let friends wear glitter before noon

Bonnie Travers

Old Things

I don't like modernity.
I'm old.
I hate plastic and despise shops.
I don't like TV. I like books
and I dream of ancient trees so huge
that libraries could be carved
into the trunks
and living rooms made around the roots.
I imagine old graveyards for comfort
imagine forests guarding eternity, breathing
deep and silently.
Old things. I like old things.
I don't want to walk into the city anymore.
I want to stay here, in my chair,
and dream of old things
until I'm young.

Sarah Clarkson

Valentine's Day Poet Tree

I'm too impatient for prose.
Life is full
of humming-bird wings.
Writing should be too.

Sarah Clarkson

Conflagration

Heat
Hot
Burning
An ephemeral existence
Delirious masquerades dance like baroque apparitions
As barren winters cease to show their faces
Amber flames lick against timber
Swallowing the endless darkness
The thick smoke lingers long after the manic animal has retreated
And you're still watching from your window

Bonnie Travers

Bedtime Story

There was choice everywhere.
A little dark smile
cold sting of rain
one girl murdering the air.
No coat. No shoes.
Running
with books on her breasts.
She saw a swan. It was a prince.
She saw a hunter
undressed and spilling
his arching neck
tying a sailor's knot.

You're too young to understand.

Polish boys
fight tanks with bayonets.
A lace-soaked arm
can suck a punch.
Life's in the down-pipe
fallen and clean.
Mum's screaming about Wall Street.

Time to sleep my dear.

Sarah Clarkson

Academic Award Ceremony

The achievement of over 70 exceptional students was recognised at the Academic Award Ceremony on February 6 at Launceston College. Principal Keith Wenn spoke about the challenges facing Tasmania's colleges as they seek to offer the best learning opportunities for all students in a rapidly changing world. He highlighted the fact that 82 students had gained a TE Rank of 80 or more- a considerable achievement.

Launceston College's TCE results showed the students' commitment to excellence and hard work. Fifty-one students gained subject awards for an EA for a level 5 subject, with 16 of them showing success in more than one subject. The inaugural Launceston Advanced Academic Diploma was awarded to Nicholas Hamilton, Ashlin Lee, Adam Marshall, Huon McGifford, Keiren Mitchell, Rebekah Moore and Margot Tidey.

In the Special Awards category congratulations went to Zoe Bok (Lewis Bardenhagen Prize for English), Alex Males (Old Scholars Maths/ Science Prize), Roisin Mortimer (Edward Wesley Prize for Music), Tom Bock (Cameron's Accounting Prize) and William Head (CPA Business Prize).

The runner up to the dux was Zoe Bok with a TE Rank of 99.5. Alex Males was a very worthy winner of the accolade, Dux for 2007, with a TE Rank of 99.8.

The student hosts for the evening were Jackie Bennett and Jackson Milne. The College's new grand piano was showcased by performances from Ben Austin and Roisin Mortimer, while Lyndon Riggall performed a comic monologue. Featured poets in the Program were Crystal Adams and Nieka Bishop.
