

AUR20720 Certificate II in Automotive Vocational Preparation

Love pulling things apart to see how they work? Been dreaming of being a mechanic or working in motorsports since you got your first bicycle? If cars, bikes, or engines spark your interest, the Certificate II in Automotive Vocational Preparation could set you on the path to a career working in automotive retail, service, or repair settings.

In this course, you may:

- learn how to identify and inspect mechanical and electrical components in vehicles such as light and heavy vehicles, bicycles, motorcycles, and marine craft
- gain experience using and maintaining tools and equipment safely
- learn about workplace expectations and industry options
- carry out minor maintenance and pre-repair tasks
- get practice solving routine problems related to vehicles and equipment.

Career pathways

This qualification provides basic skills and experience that support entry-level, non-trade roles within the automotive industry, such as automotive administration and automotive sales. It may lead on to further study or an apprenticeship in the automotive industry.

Further study pathways
