

CPC20220 Certificate II in Construction Pathways

Were you a Lego master when you were a kid? Do you like the idea of building something from scratch with your own hands? If you'd like to learn more about the construction industry, this course is a great starting point. You will gain an understanding of the types of trades within the construction industry and what skills you'll need for an off-site occupation (such as joinery and carpentry). It provides a pathway to further study, an apprenticeship, and work in the primary trades.

In this course, you may:

- learn about the construction industry and explore career options
- develop your practical construction skills in the workshop
- carry out measurements and calculations
- learn how to stay safe in the workplace
- undertake a practical work placement.

Career pathways

This qualification provides a pathway to further study, an apprenticeship, or a career in the construction industry such as carpentry, joinery, concreting, bricklaying, and other general construction occupations (excluding plumbing).

Further study pathway

CPC20220 Certificate II in Construction Pathways

Certificate II in Construction
 Certificate III in Carpentry
 Certificate III in Bricklaying and Blocklaying
 Certificate III in Joinery
 Certificate III in Wall and Ceiling Lining
 Certificate III in Wall and Floor Tiling
